

I Claim:

1. A secondary ring comprising:
a first portion hingedly coupled with a second
portion at a first end of said first and second portions;
5 said first and second portions selectively
coupled at a second end of said first and second,
defining a open condition ring when not selectively
coupled and defining a closed condition ring when
selectively coupled.
- 10 2. A secondary ring according to claim 1,
said secondary ring further comprising ornamentation on
at least one of said first and second portions.
3. A secondary ring according to claim 1,
said secondary ring further comprising a coupling between
15 said second ends of said first and second portions.
4. A secondary ring according to claim 3,
said coupling comprising a coupler on said first portion
and a coupler receiver on said second portion.
- 20 5. A secondary ring according to claim 1
coupled about a jewel on a primary, finger-worn ring.
